

# REACH WORKCAMPS

## VEHICLE INFORMATION FORM

Your vehicle(s) will be needed to transport crews to and from the worksites during the workcamp. Vans, small buses and station wagons are the best vehicles for transporting crews. If you bring a charter bus, RV or customized van, you are still responsible for supplying transportation to the worksites for the number of participants you bring. Black plastic will be provided as seat covers upon request.

Please provide information about your vehicle(s) in the spaces below. Include a primary driver for each vehicle and any other adults that can also drive that vehicle. If someone is able to drive more than one vehicle, please list them under each vehicle they can drive. All drivers must be at least 21 years of age and fully covered by auto insurance. **Send a copy of vehicle insurance coverage in with this form.** Copies of insurance for rented vehicles may be made at camp. All vehicles should be safe and in good repair.

Planning for the workcamp is dependent upon the accuracy of this information. If your group is bringing Troubleshooters or Red Shirt Volunteers that aren't to place on a worksite, place a check after which vehicle they will drive. Account for seats being removed from vans, if appropriate. Gas expenses incurred for transporting crews to and from the worksites will be reimbursed upon request. If you are renting a vehicle and are charged per mile, these expenses will be reimbursed upon request. **Please contact us immediately if there are any changes at 1-888-732-2492.**
